

# Website Development – Responsive & SEO-Optimised Websites

Transform your online presence with fast, modern, and high-performing websites

From concept to code — we bring your ideas online.

# Building Growth Engines, Not Just Websites

## About Trivikra Tech Pvt. Ltd.

We specialise in crafting responsive, SEO-friendly, and scalable websites that drive real business results. Our approach combines cutting-edge technology with strategic thinking to create digital experiences that convert visitors into customers.

Every website we build is optimised for speed, mobile responsiveness, and search engine visibility — ensuring your business stands out in today's competitive digital landscape.

- ❑ **We don't just build websites — we build growth engines.** Our solutions are designed to scale with your business, providing the foundation for long-term digital success.

# Our Development Process

A proven six-step methodology that ensures quality, efficiency, and exceptional results from start to finish.

01

## Discovery & Planning

We begin by understanding your business goals, target audience, and competitive landscape. This research phase shapes every decision that follows.

03

## Development

Using HTML5, CSS3, Bootstrap, and React.js, we transform designs into pixel-perfect, high-performance websites with clean, maintainable code.

05

## Testing & Deployment

Rigorous testing across devices and browsers ensures flawless functionality before we launch your site with zero downtime.

02

## Design & Prototype

Our designers create intuitive, visually compelling interfaces with detailed wireframes and interactive prototypes for your approval.

04

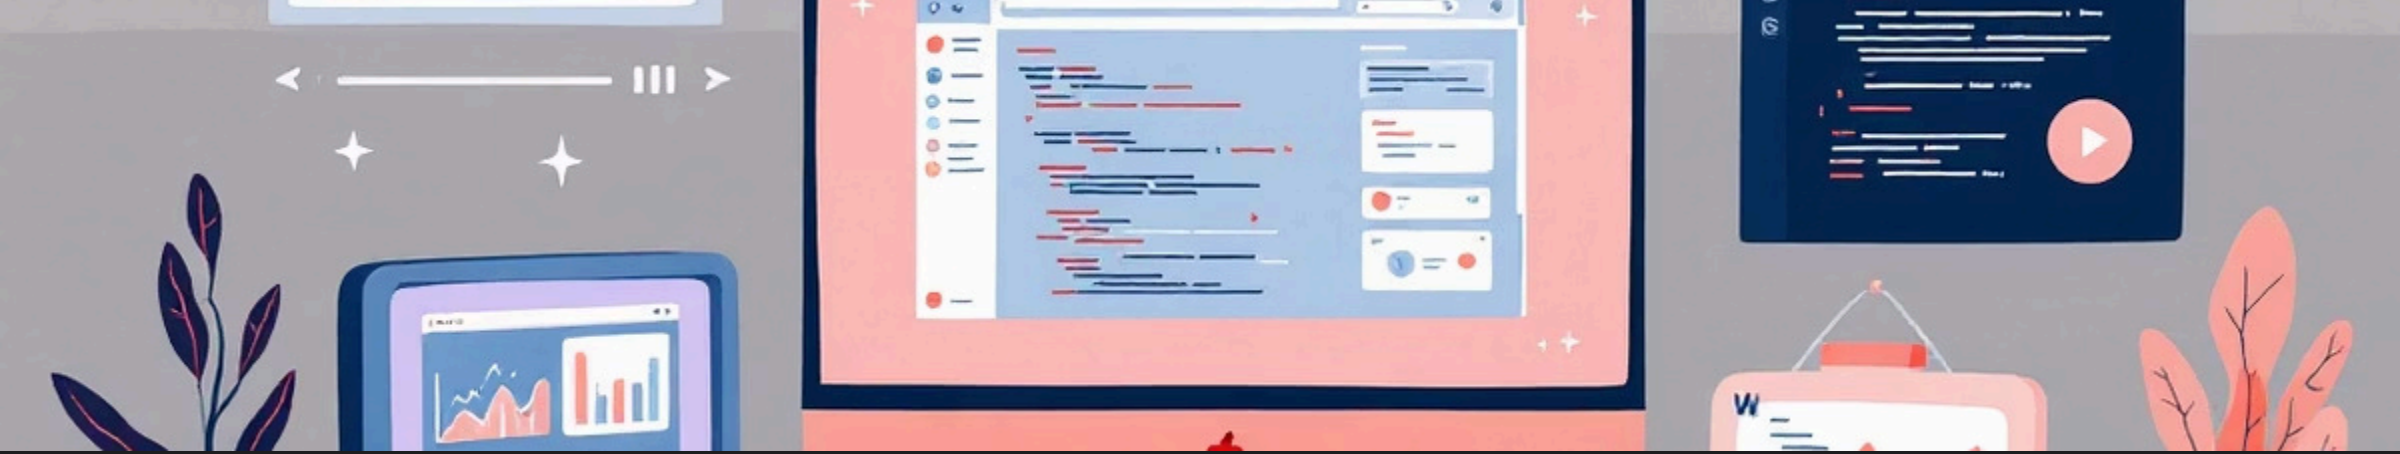

## SEO Integration

We implement comprehensive on-page SEO, structured data, optimised meta tags, and performance enhancements to maximise search visibility.

06

## Maintenance & Support

Ongoing support keeps your website secure, updated, and performing at its peak with regular monitoring and improvements.
